

Dear Patients,

Good News: as of June 15, 2020 we will reopen our dental office. This has been a trying time for all of us. Hopefully, you and your family have remained safe and healthy. We are continuing to show empathy for those around us. Arming ourselves with knowledge gives us the power to make healthy decisions.

Our vision and values have always been a commitment to our patients and each other as we strive for excellence. Delivering the best dentistry is what we do. In order to better serve you, we have done some very special things while the office has been closed. We have been busy behind the scenes preparing a better office for your care.

Some of the health decisions we have made have been to create a safe environment when you are in the office. The number of patients being seen is limited to assure social distancing. All personal protection equipment is in place and training completed. Sterilization with UV, HEPA filters and high vacuum systems are now being used to further protect everyone.

Additionally, we have created an office Membership Wellness Plans to assist those of our patients who no longer have insurance or would like to change plans. We welcome anyone that is interested.

Please make your appointments as soon as you are able. With the concern of the risk of flu and COVID 19 cases increasing during the fall and winter, this is time to address your dental needs. We would like to help keep you as healthy as possible. There are pre-forms that will need to be completed before your appointment. Please continue to the next pages.

In order to help you get back on your feet, we have extended our hours to include some Fridays and Saturdays for the next 3 months.

We look forward to seeing you again and any referrals you may wish to have us take care of. Thank you for your loyalty and commitment.

*Barbara Young, DDS and Staff*
